

CASSETTES

CHROMIC CATGUT

Absorbable, high strength and knots easily

CODE	LENGTH	SIZE	
CH 1 3	100 metres	3/0	3
CH 135	100 metres	2/0	3.5
CH 7 4	75 metres	0	4
CH 5 5	50 metres	1	5
CH 5 6	50 metres	2	6

SUPRAMID - Multifilament sheathed Nylon

Non – absorbable. Smooth passage through tissue with minimal trauma

CODE	LENGTH	SIZE	
SP 1 2	100 metres	3/0	2
SP 1 3	100 metres	2/0	3
SP 135	100 metres	0	3.5
SP 7 4	75 metres	1	4
SP 5 5	50 metres	2	5

Nylon – Monofilament Nylon

Non – absorbable. Smooth passage through tissue with minimal trauma

CODE	LENGTH	SIZE	
SK 1 2	100 metres	3/0	2
SK 1 3	100 metres	2/0	3
SK 135	100 metres	0	3.5
SK 7 4	75 metres	1	4
SK 5 5	50 metres	2	5

PLAIN CATGUT

Absorbable, high strength and knots easily

CODE	LENGTH	SIZE	
PL 1 3	100 metres	3/0	3
PL 135	100 metres	2/0	3.5
PL 7 4	75 metres	0	4
CH 5 5	50 metres	1	5
CH 5 6	50 metres	2	6

SILK - Braided non - capillary

Non – absorbable. Impregnated with silicone wax and has excellent tying properties

CODE	LENGTH	SIZE	
BS 1 2	100 metres	3/0	2
BS 1 3	100 metres	2/0	3
BS 135	100 metres	0	3.5
BS 7 4	75 metres	1	4
BS 5 5	50 metres	2	5

PGA – Braided Synthetic Polyglycolic Acid

Absorbable. Impregnated with silicone wax and has excellent tying properties

CODE	LENGTH	SIZE	
PG 2 2	25 metres	3/0	2
PG 2 3	25 metres	2/0	3
PG 235	25 metres	0	3.5
PG 2 4	25 metres	1	4
PG 2 5	25 metres	2	5

CASSETTES HOLDERS

A strong, stainless steel cassette holder with rubber feet for table mounting or eyes for wall mounting. Holds 5 cassettes

The above range of cassettes represents our most popular range. We also manufacture Polyester, Stainless Steel, Linen and Polydioxanone cassettes.

Cassettes are packed in conditioning fluid, the constituents of which are isopropanol and water
* with the exception of PGA and PDO cassettes are supplied dry.

Cassette are sterilised by either Gamma Irradiation or Ethylene Oxide
